## THE PERSONNEL OF PARTIES

The new American Minister will no be long in finding out that the 40,000 aborigines in whose name the strident appeal for "justice" and "restoration" is made, have no demands of their own in their simplicity, and their ambition goes no further than to find food and clothing and the opportunities for invested in the business enterprises of What of these? these Islands. it is needless to say, are supplied by favor British jurisdiction here. As addresses itself. Minister Willis stays in Honolulu and studies the recent history of Hawaii, he will recognize in the British Minister an able and intrepid foe of American progress and a firm friend of the lost cause. Then there is T. H. Davies, who wants the monarchy revived so that his English-sympathizing ward, may some time reign, with British influences dominant in the palace. The Anglican Bishop is also a Royalist worker in his field of church ly influence. The entire Royalist press, except Ka Leo, a paper edited by a half-white who, two years ago, denounced the immoralities of the Queen, are controlled by the English faction and mainly written by British pens. In conclusion the men who were under arrest for conspiracy against the Provisional Government not long ago were Englishmen; and all over the Islands those who do most to oppose the aims of the Annexation party belong to the Royalist captains comes chiefly from heed to that prediction. English throats.

As for the rank and file-the following-there are the half-whites who last week announced that Mr. Willis' Auction, the lease of the remnants of the were in office and at court, the low whites who found the lax morals of the monarchy congenial, and a few Americans with family ambitions to serve. We speak again of Claus Spreckels, who wants nothing to come between the find that the new Minister came prowind and his monopoly. These comprise, as we said before, the strength of the restoration party.

The conclusion which we are sure the Minister will draw, as all these facts are proven to him, is that the Motiarchist party, instead of being a nation, is a faction; and a faction at that which has its chief ambitions centered at the court of St. James rather than at that of St. Pele. ## TRUTHS OF HISTORY.

The Bulletin, with both eyes on \$6.00 Snow cottage and one ear turned towards Washington Place, began last night to instruct the new American Minister upon Hawaiian history from a Royalist standpoint. Naturally, such history as this was stranger than fiction and quite as trustworthy. It seems astounding that in spite of all that is in faction any sunshine that it can extract public memory and upon valid records, the Bulletin should have undertaken to say that the accusations against the late regime of immorality, bribery, debauchery, opium, lottery and despotism were nothing but "hypocritical bombast." No flatter contradiction than this of notorious facts could well be made; and it serves to show that the only defense left to the monarchist party for its past corruption and misrule are the kinds of falsehood which are made openly, knowingly and with naked intent to deceive.

No immorality and debauchery i to voice. Did You Ever

consider the advantages in using a typewriter?

Its the exception to have a business letter from abroad that is not typewritten. There's some good reason, and business men have found it. Suppose you write 6 hours a day averaging 20 words per minute, you will write 7200 words or 24 pages. Use the Caligraph and at end of 6 hours 72 pages will be neatly written. Besides, if you wish, you can make 8 copies at once on the Caligraph by manifolding. The Caligraph is generally admitted to be the very best manifolder owing to strength of arms. The action is direct; there are no complicated contortions performed before the type strike the desired impression.
